## **June 9, 2020 Town Board Meeting via ZOOM**

11

00:04:48.840 --> 00:05:11.880

Town Supervisor - Ray Oberly: Awesome. Okay. I call this regular town board meeting to order. On June 9 2020 or this is a regular monthly town Clinton Tom board meeting being held today via teleconference in using film with the YouTube Live stream to the public. This is due to the Novell for Wellness.

12

00:05:13.170 --> 00:05:22.980

Town Supervisor - Ray Oberly: coven passionate team emergency state and federal bands on larger meetings or gatherings and presented Governor Cuomo executive order.

13

00:05:23.430 --> 00:05:43.860

Town Supervisor - Ray Oberly: 202.1 issued on March 12 2022 SPENDING THE OPEN MEETINGS law, there is no audience participation and members of the public may view the board meeting, as it is live streamed on the town board video page on the website. We have to do roll call first

14

00:05:44.940 --> 00:05:48.390

Town Supervisor - Ray Oberly: Supervisor overly here councilman Giuliana

15

00:05:48.810 --> 00:05:50.970

Town Supervisor - Ray Oberly: Here councilman Witten

16

00:05:51.300 --> 00:05:53.520

Town Supervisor - Ray Oberly: Here councilman Michael

17

00:05:55.890 --> 00:05:56.460

Town Supervisor - Ray Oberly: Michael

18

00:05:57.690 --> 00:05:58.050

Town Supervisor - Ray Oberly: And

19

00:05:59.640 --> 00:06:00.750

Chris Juliano - Council Person: You gotta unmute you.

20

00:06:02.460 --> 00:06:03.150

Town Clerk Carol Mackin: you're muted.

21

00:06:04.980 --> 00:06:06.210

Dean Michael: 30 guys like me that way.

22

00:06:08.340 --> 00:06:09.870

Town Supervisor - Ray Oberly: Okay, this year now.

23

00:06:10.200 --> 00:06:11.730

Town Supervisor - Ray Oberly: councilman telling him.

24

00:06:12.990 --> 00:06:13.410

Nancy Cunningham: Yeah.

25

00:06:14.550 --> 00:06:15.480

Town Supervisor - Ray Oberly: Town Clerk my

26

00:06:16.020 --> 00:06:16.560

Fear.

27

00:06:17.610 --> 00:06:19.650

Town Supervisor - Ray Oberly: Okay, we're going to go now forward.

28

00:06:19.710 --> 00:06:21.150

Town Supervisor - Ray Oberly: And approve the minutes.

29

00:06:21.900 --> 00:06:27.570

Town Supervisor - Ray Oberly: And make a motion to approve the minutes and may 12 2020 regular town board meeting. Is there a second

30

00:06:28.140 --> 00:06:29.010

Dean Michael: The Michael second

31

00:06:30.660 --> 00:06:34.260

Town Supervisor - Ray Oberly: Okay, we're gonna have to do a roll call vote.

32

00:06:35.430 --> 00:06:37.800

Town Supervisor - Ray Oberly: Overly I Giuliana

33

00:06:38.280 --> 00:06:39.750

Town Supervisor - Ray Oberly: I within

34

00:06:40.200 --> 00:06:41.700

Town Supervisor - Ray Oberly: I Michael

35

00:06:41.940 --> 00:06:43.800

Town Supervisor - Ray Oberly: I putting him.

36

00:06:44.370 --> 00:06:49.500

Town Supervisor - Ray Oberly: I motion carry. Now we go into the supervisors comments.

37

00:06:51.690 --> 00:06:53.250

Town Supervisor - Ray Oberly: So how appropriate things

38

00:06:54.660 --> 00:07:14.190

Town Supervisor - Ray Oberly: The Fourth of July holidays. On Saturday, and the town hall, as all of the offices closed the library will also be closed and important changes the town recycling center operated by well sanitation will be closed on July 4 they don't do it often. But certainly the

39

00:07:15.390 --> 00:07:23.700

Town Supervisor - Ray Oberly: Clinton highway superintendent Todd Martin is alerting the community that pumpkin lane from Chad, going to the tectonic State Parkway.

40

00:07:24.090 --> 00:07:41.940

Town Supervisor - Ray Oberly: Will have road resurfacing starting on Monday, June 29 and ending Friday, July 3 please make changes to your travel plans, since that can be road closures as resurfacing is being done other roads will be done over the summer. But I've not been scheduled

41

00:07:43.440 --> 00:07:50.070

Town Supervisor - Ray Oberly: The town just moved into phase two today, there will be no change from the current mode of town operation.

42

00:07:51.330 --> 00:08:03.000

Town Supervisor - Ray Oberly: We are installing the proper plastic shielding to protect the town staff and obtaining coven 19 virus VPN cleaning supplies to minimize everyone's exposure to writers

43

00:08:03.900 --> 00:08:13.710

Town Supervisor - Ray Oberly: As you are aware of the purchase of PPM virus cleaning supplies are not easily obtained, we hope to have in person activity by

44

00:08:14.610 --> 00:08:27.690

Town Supervisor - Ray Oberly: Have some in person activity by the end of doing in the meanwhile, continue to use the phone fax emails. The drop box on the fortunate town hall to get business transaction.

45

00:08:28.710 --> 00:08:44.280

Town Supervisor - Ray Oberly: Some of the phase two changes are the opening of hair cutting outside dining at restaurants for worship services up to 25% capacity graduation and parking areas are driving movies and others. I'm not reading the full

46

00:08:45.420 --> 00:08:51.420

Town Supervisor - Ray Oberly: thanks are given to the highway crew for quick and efficient removal of the four large maple trees.

47

00:08:51.900 --> 00:09:01.620

Town Supervisor - Ray Oberly: At the town hall complex alongside the dragon these trees were dying with large branches falling in the area Park cars and repeat the residents would walk

48

00:09:02.610 --> 00:09:11.190

Town Supervisor - Ray Oberly: Their work improve the safety of the town's property and save taxpayers, cause they will be replaced in the future. Thanks again for a job well.

49

00:09:12.510 --> 00:09:20.640

Town Supervisor - Ray Oberly: The New York State Department of Taxation and finance certified that the Times equalization rate remains at 100% for 2020

50

00:09:21.480 --> 00:09:32.970

Town Supervisor - Ray Oberly: This means that the properties assessed and property value or the same thanks for giving to our assessor Teresa Stegner for efforts and keeping the equalization rate at 100%

51

00:09:33.990 --> 00:09:51.600

Town Supervisor - Ray Oberly: This is a 2020 sentences reminder, you should have completed your 2020 sentence. By now the data for the town of clicking on Jim's two shows 58.2% of the households I registered the Dutchess County self response rate.

52

00:09:52.710 --> 00:10:06.000

Town Supervisor - Ray Oberly: Is fairly is in fairly good shape. The National percentage is 16.5 while the state percentage is 55.6 and touches percentage is 59 point on

53

00:10:06.750 --> 00:10:29.070

Town Supervisor - Ray Oberly: This should be 100% by now, and effort to get 100% reservation. The census staff is beginning limited field operations and is dropping off questionnaire packages at front doors of households in our area. People can fill out their sentence online@www.my 2020 see fences that

54

00:10:30.090 --> 00:10:32.970

Town Supervisor - Ray Oberly: They can also do it over the phone by calling

55

00:10:34.680 --> 00:10:53.460

Town Supervisor - Ray Oberly: 844-330-2020 for English and 844-468-2024 Spanish, they can request the census form if one hasn't been dropped off already fill it out and then mail it back.

56

00:10:54.180 --> 00:11:20.760

Town Supervisor - Ray Oberly: Garbage rate increase website annotation has increased the rates as follows. One to 13 gallon bag to \$3 that's an increase of \$1 14 to 33 gallon by two \$5 was a \$1 increase the 34 to 55 gallon by 215 dollars. That's a \$10 increase. They're not increase their prices for many years.

57

00:11:27.690 --> 00:11:28.890

Town Supervisor - Ray Oberly: Okay transmission

58

00:11:31.620 --> 00:11:37.800

Town Supervisor - Ray Oberly: We gotta just this afternoon, an email concerning the power line transmission stuff.

59

00:11:38.640 --> 00:11:54.720

Town Supervisor - Ray Oberly: They're doing geothermal work is complete, we can continue to advance geophysical survey work which is none of a sudden it's so small crews walking sections of it right away with equipment. This work is being done by terror con

60

00:11:55.290 --> 00:12:13.350

Town Supervisor - Ray Oberly: The same time tractor as the geo tech work, this will last for several weeks in the transmission part or in all the other towns and Clinton permitting we'll continue to work through the regulatory Article seven process and they have some meetings that are scheduled

61

00:12:14.370 --> 00:12:24.660

Town Supervisor - Ray Oberly: Land order feel meetings we have started conducting and will continue scheduling feel meetings with Jason landowners and our residents, please contact

62

00:12:25.230 --> 00:12:38.880

Town Supervisor - Ray Oberly: Them. If you know of anyone in your community, that would be interested in such a visit. We have will of course adhere to Raul coven 19 health and safety precautions this. The other one is

63

00:12:40.140 --> 00:12:40.620

Town Supervisor - Ray Oberly: In

64

00:12:48.060 --> 00:13:00.480

Town Supervisor - Ray Oberly: The sent a letter of project updates to all the budding property owners last week. So, but what's happening there. So let's end this

65

00:13:04.380 --> 00:13:07.050

Town Supervisor - Ray Oberly: So next thing is all business none.

66

00:13:11.700 --> 00:13:16.110

Town Supervisor - Ray Oberly: Now we start a business, and then she can have a big one in here.

67

00:13:17.310 --> 00:13:18.480

Town Supervisor - Ray Oberly: So start off net

68

00:13:19.560 --> 00:13:39.030

Nancy Cunningham: New business okay um if you have been written by any of our parks, you may see that we have a big posted times that basically talk about the new rules for coda 19. This is a resolution to make them official and

69

00:13:40.410 --> 00:13:56.640

Nancy Cunningham: I'd like to have the town board approved the following resolution be resolved with the town board approved resolution 20 of 2020 titled town of Clinton rules for use of rec parts during codec 19 closures.

70

00:13:59.850 --> 00:14:00.780

Chris Juliano - Council Person: Giuliana second

71

00:14:01.770 --> 00:14:05.310

Town Supervisor - Ray Oberly: Okay, ready for the roll call vote discussion.

72

00:14:06.510 --> 00:14:08.910

Town Supervisor - Ray Oberly: Okay, overly I Giuliano

73

00:14:09.210 --> 00:14:10.530

Town Supervisor - Ray Oberly: Hi within

74

00:14:10.830 --> 00:14:12.360

Town Supervisor - Ray Oberly: I Michael

75

00:14:12.540 --> 00:14:12.780

I

76

00:14:14.940 --> 00:14:15.330

Nancy Cunningham: I

77

00:14:15.870 --> 00:14:17.700

Town Supervisor - Ray Oberly: Motion carry natural

78

00:14:20.130 --> 00:14:28.950

Nancy Cunningham: Alright, the next one is are actually dealing with the activities in the park as well. Again, they're affected by the code is 19

79

00:14:29.370 --> 00:14:37.680

Nancy Cunningham: So I'd like to the end, they involve all the activities. So I'd like to make an evolution of the town board improve the following resolution.

80

00:14:38.190 --> 00:15:02.100

Nancy Cunningham: That the town about the resolve of the town board approved resolution 21 of 2022 result resolution canceling swimming summer camp civilian rentals do to call this 19. However, I will add that we have, then we have our guard K card and we have

81

00:15:03.450 --> 00:15:03.780

Nancy Cunningham: A

82

00:15:07.440 --> 00:15:16.920

Nancy Cunningham: lifeguard. Thank you. Always go after the the water to make sure that everyone stays safe we have been having the water tested.

83

00:15:17.730 --> 00:15:36.090

Nancy Cunningham: By the county to make sure that everything is correct. And if we get the go ahead in a reasonable period of time, we may consider opening the park or swimming only, but that will be a decision made later on. So second

84

00:15:37.980 --> 00:15:39.210

Secondly, the second

85

00:15:41.040 --> 00:15:41.790

Dean Michael: Day Michael second

86

00:15:43.380 --> 00:15:47.100

Town Supervisor - Ray Oberly: Okay, we'll do a roll call vote unless anybody has some discussion.

87

00:15:48.390 --> 00:15:50.550

Town Supervisor - Ray Oberly: Overly I you know

88

00:15:50.880 --> 00:15:52.350

Town Supervisor - Ray Oberly: I within

89

00:15:52.650 --> 00:15:53.070

I

90

00:15:54.390 --> 00:15:55.140

Town Supervisor - Ray Oberly: Michael

91

00:15:55.350 --> 00:15:55.620

Dean Michael: I

92

00:15:55.980 --> 00:15:56.610

Told him.

93

00:15:59.040 --> 00:15:59.430

Nancy Cunningham: I

94

00:15:59.940 --> 00:16:01.140

Town Supervisor - Ray Oberly: Motion Kelly.

95

00:16:03.030 --> 00:16:21.270

Nancy Cunningham: Okay. Additional resolution to be made is the official opening and closing of the park itself. The hours are somewhat different than they've done in the past again due to cope with 19. So I asked if you'd like to make a reservation.

96

00:16:22.380 --> 00:16:24.600

Nancy Cunningham: Ask the town board to approve regular should

97

00:16:25.920 --> 00:16:31.770

Nancy Cunningham: Be it resolved that the town board approves of francois Park hours to be

98

00:16:33.270 --> 00:16:42.060

Nancy Cunningham: Operated from May 28 through October 1 from 9am to 6pm daily open seven days a week.

99

00:16:43.200 --> 00:16:44.700

Nancy Cunningham: For the park residents.

100

00:16:45.870 --> 00:16:49.050

Nancy Cunningham: With IDs and stickers is required.

101

00:16:49.530 --> 00:16:51.750

Town Supervisor - Ray Oberly: Okay, so the second Michael

102

00:16:52.140 --> 00:16:52.830

Dean Michael: Michael second

103

00:16:53.460 --> 00:16:55.140

Town Supervisor - Ray Oberly: Okay. Any further discussion.

104

00:16:56.340 --> 00:16:59.040

Town Supervisor - Ray Oberly: All the little go through a roll call vote.

105

00:17:00.120 --> 00:17:02.700

Town Supervisor - Ray Oberly: Overly I Giuliano

106

00:17:04.140 --> 00:17:04.800

Town Supervisor - Ray Oberly: Within

107

00:17:05.160 --> 00:17:05.640

Michael Whitton - Councilmember: I

108

00:17:06.000 --> 00:17:07.290

Dean Michael: My whole life.

109

00:17:07.740 --> 00:17:09.750

Nancy Cunningham: Planning home I

110

00:17:10.530 --> 00:17:12.510

Town Supervisor - Ray Oberly: Motion Karen naturally

111

00:17:13.620 --> 00:17:15.540

Nancy Cunningham: I'm Chris is handling this

112

00:17:16.080 --> 00:17:21.900

Chris Juliano - Council Person: Okay, so, so the next resolution is about the 284 agreement to prove that

113

00:17:23.100 --> 00:17:35.610

Chris Juliano - Council Person: Our highway department. Others three main projects that are going on. I'm sorry for me projects that are going on here. We have full killer road to

114

00:17:36.690 --> 00:17:51.360

Chris Juliano - Council Person: Start to commencing on full kill road from rescue lane, leading to the town line. It is about 1.19 Miles Shelby expanded not over the summer of \$19,330 and 13 cents.

115

00:17:52.530 --> 00:17:53.940

Chris Juliano - Council Person: That's to oil and stone.

116

00:17:55.110 --> 00:17:56.640

Chris Juliano - Council Person: Then we have Hibernia road.

117

00:17:57.960 --> 00:18:06.840

Chris Juliano - Council Person: On the Road commencing at the Hibernia road from the town line and leading 25 feet from the county State Parkway a distance approximate point four miles.

118

00:18:07.890 --> 00:18:14.400

Chris Juliano - Council Person: Within the costs of not to exceed 30,000 that's black topping that we have pumpkin lane.

119

00:18:15.870 --> 00:18:33.120

Chris Juliano - Council Person: From starting on the road, commencing electronics lane leading up to approximate 25 feet from the county State Parkway approximately 1.5 Miles, not to exceed the sum of 140 \$1,954 that's black editing blacktop

120

00:18:34.170 --> 00:18:36.120

Chris Juliano - Council Person: And then we have pumpkin lane.

121

00:18:37.200 --> 00:18:54.240

Chris Juliano - Council Person: From pumpkin lane at chappelow lane and leading to Maybelline a distance of approximately half a mile with the sum of not to be beyond at \$4,850 that's going to be adding new black top surface on that.

122

00:18:55.980 --> 00:18:58.020

Chris Juliano - Council Person: So basically,

123

00:18:59.790 --> 00:19:12.540

Chris Juliano - Council Person: Be it resolved that the town board approves a resolution number 22 of 2020 the agreement to spend highway funds which the 284 agreement.

124

00:19:13.170 --> 00:19:14.160

Town Supervisor - Ray Oberly: Your second

125

00:19:15.780 --> 00:19:16.500

Dean Michael: Be Michael second

126

00:19:18.150 --> 00:19:19.470

Town Supervisor - Ray Oberly: Any further discussion.

127

00:19:20.880 --> 00:19:24.030

Town Supervisor - Ray Oberly: Roll call vote overlay. I do yellow

128

00:19:24.480 --> 00:19:25.950

Town Supervisor - Ray Oberly: I within

129

00:19:26.310 --> 00:19:27.750

Town Supervisor - Ray Oberly: I Michael

130

00:19:27.990 --> 00:19:29.520

Town Supervisor - Ray Oberly: I don't have

131

00:19:30.150 --> 00:19:31.920

Town Supervisor - Ray Oberly: High motion, Terry.

132

00:19:33.420 --> 00:19:36.930

Town Supervisor - Ray Oberly: Okay, the next one is approved increase in garbage rates.

133

00:19:37.950 --> 00:19:43.170

Town Supervisor - Ray Oberly: I told the earlier on their supervisor comments about the changes that were being

134

00:19:44.490 --> 00:19:47.940

Town Supervisor - Ray Oberly: Requested. So this is the motion to approve that

135

00:19:48.660 --> 00:20:03.750

Town Supervisor - Ray Oberly: And make motion at the town board approves the following resolution be resolved that the town board approves the increase in the rates for bad garbage disposal at the time transfer station operated by well sanitation effective July 1 2020

136

00:20:05.580 --> 00:20:06.390

Town Supervisor - Ray Oberly: Is a second

137

00:20:07.350 --> 00:20:08.190

Dean Michael: Day Michael second

138

00:20:09.390 --> 00:20:10.140

Town Supervisor - Ray Oberly: Discussion.

139

00:20:11.370 --> 00:20:13.500

Chris Juliano - Council Person: Yeah, I just want to say, you know, through

140

00:20:14.700 --> 00:20:19.590

Chris Juliano - Council Person: When, when we had when Welsh kind of held off with the coven they're coming in.

141

00:20:20.790 --> 00:20:23.040

Chris Juliano - Council Person: Conversations with

142

00:20:24.300 --> 00:20:32.100

Chris Juliano - Council Person: With them directly on that of our rates haven't changed. I think since 2015 was last contract on that.

143

00:20:33.630 --> 00:20:39.660

Chris Juliano - Council Person: So I just want to make you ever aware again and I think Ray even said it that the these rates have been increased since then.

144

00:20:40.740 --> 00:20:45.990

Chris Juliano - Council Person: So it's from what I understand, speaking to him. It's additional coverages that they gotta you know extra

145

00:20:46.500 --> 00:21:00.600

Chris Juliano - Council Person: Courses that they got to use as well as operating costs. We haven't sat down with them directly and reworked a contract. These were prices that they came up. But in order for them to keep going. Currently at the town from my conversations with myself.

146

00:21:02.100 --> 00:21:06.300

Town Supervisor - Ray Oberly: Okay, we'll do a roll call vote overly I Giuliano

147

00:21:07.350 --> 00:21:08.130

Town Supervisor - Ray Oberly: With them.

148

00:21:08.640 --> 00:21:10.110

Town Supervisor - Ray Oberly: I Michael

149

00:21:10.320 --> 00:21:11.820

Town Supervisor - Ray Oberly: I bring him.

150

00:21:12.330 --> 00:21:14.430

Town Supervisor - Ray Oberly: High Motion carried.

151

00:21:19.380 --> 00:21:20.430

Town Supervisor - Ray Oberly: Okay, now. Alright.

152

00:21:23.520 --> 00:21:29.400

Michael Whitton - Councilmember: So I'm just going to read a little thing to explain what this as most of you know it, but for those watching at home.

153

00:21:30.300 --> 00:21:35.640

Michael Whitton - Councilmember: Dance camera energy owns an existing 64 year old power plant on the Hudson River in the town of Newburgh.

154

00:21:36.360 --> 00:21:40.350

Michael Whitton - Councilmember: The existing plant operates only a handful of days of the year as a peak or facility.

155

00:21:40.800 --> 00:21:49.290

Michael Whitton - Councilmember: Dance camera is proposing to build a new 550 megawatt gas fired plant next to the existing facility and it would be a baseload facility running nearly all the time.

156

00:21:50.100 --> 00:21:56.370

Michael Whitton - Councilmember: Power from a new dance camera plan is not needed to replace Indian point when it's generating units for top retire.

157

00:21:57.180 --> 00:22:04.080

Michael Whitton - Councilmember: Every two years, New York ISO conductor reliability needs assessment which assesses whether adequate generation and transmission resources exist.

158

00:22:04.500 --> 00:22:07.050

Michael Whitton - Councilmember: To ensure the reliability of New York's volt power system.

159

00:22:07.800 --> 00:22:18.330

Michael Whitton - Councilmember: And its most recent report New York I so concluded that even with an Indian points retirement, there will be no reliability concerns for New York's electric system over at least the next 10 years without a new dance camera plan.

160

00:22:19.020 --> 00:22:27.000

Michael Whitton - Councilmember: And given the recent very large increase in proposed renewable energy products projects as a result of the adoption of the climate leadership and community Protection Act.

161

00:22:27.390 --> 00:22:32.130

Michael Whitton - Councilmember: future generation needs are expected to be met by renewable resources supported by energy storage.

162

00:22:33.060 --> 00:22:36.510

Michael Whitton - Councilmember: The new dance camera plant will emit far more air pollution than the existing plan.

163

00:22:37.170 --> 00:22:42.600

Michael Whitton - Councilmember: Giving the dramatic increase in operating hours harmful air pollutants that threaten public health and contribute to climate change.

164

00:22:42.990 --> 00:22:57.480

Michael Whitton - Councilmember: Will increase significantly which dance camera itself admits in its own regulatory filings these pollutants include VCs nitrogen oxide, as well as greenhouse gas emissions which are projected to increase by more than 4,000%

165

00:22:58.980 --> 00:23:08.670

Michael Whitton - Councilmember: In April, the American Lung Association publish their state of the air 2020 this report gave the Hudson Valley air quality, a D average rating with many counties ranking among the worst in the state.

166

00:23:09.270 --> 00:23:15.270

Michael Whitton - Councilmember: Air pollution, particularly aggravates chronic diseases, including asthma. While extended exposure reduces life expectancy

167

00:23:15.840 --> 00:23:23.340

Michael Whitton - Councilmember: Given the worrying public health issues caused by the region's existing pollution building a new power plant that will exponentially increase annual emissions is a step backward

168

00:23:23.910 --> 00:23:33.420

Michael Whitton - Councilmember: So given all of that many local organizations have joined together to stop the approval of this plant. Those include senior cuts in Riverkeeper Hudson River sloop clear water and the Sierra Club.

169

00:23:33.930 --> 00:23:42.300

Michael Whitton - Councilmember: And when I first reached out to the board about this 15 communities had already passed resolutions in opposition to the plant that number is now at 20 at 19

170

00:23:42.930 --> 00:23:50.160

Michael Whitton - Councilmember: The latest one being the city of Hudson and I'm hoping that the town of Flint becomes the 20th community in the region to close the plant.

171

00:23:51.510 --> 00:24:03.870

Michael Whitton - Councilmember: So with all that being said, I make a motion that the town board approves the following resolution, be it resolved that the town board approves resolution number 23 of 2020 opposing the construction of a new dance camera power plant on the Hudson River.

172

00:24:06.720 --> 00:24:07.650

Town Supervisor - Ray Oberly: Okay.

173

00:24:13.080 --> 00:24:13.800

Town Supervisor - Ray Oberly: Well anybody

174

00:24:17.400 --> 00:24:17.760

Yeah.

175

00:24:21.210 --> 00:24:22.830

Town Supervisor - Ray Oberly: Okay discussion.

176

00:24:24.660 --> 00:24:25.890

Nancy Cunningham: We need to talk about it.

177

00:24:26.370 --> 00:24:27.960

Chris Juliano - Council Person: So, oh,

178

00:24:28.020 --> 00:24:31.140

Chris Juliano - Council Person: Yes, if you do want, did you want to start. I don't want to step over

179

00:24:31.500 --> 00:24:36.180

Nancy Cunningham: Well, I have mixed feelings about this. I mean, it's still

180

00:24:37.620 --> 00:24:41.880

Nancy Cunningham: The same still pollution. It's going to take what a couple of years to build it.

181

00:24:45.240 --> 00:24:57.630

Nancy Cunningham: What I mean what kind of return to we get in the Hudson Valley for of energy. OK, I see seems like everything is directly

182

00:24:57.630 --> 00:24:58.230

Chris Juliano - Council Person: Down to

183

00:24:58.560 --> 00:25:09.180

Nancy Cunningham: City and south. And I'm just wondering, Michael. Is there any numbers that say we have more of a return here in the Hudson Valley.

184

00:25:09.960 --> 00:25:10.290

Nancy Cunningham: I'm not

185

00:25:10.770 --> 00:25:22.320

Nancy Cunningham: I'm not clear on you know we've got more power lines going through again for the benefit of south of here. I'm a little, little conflicted with what this is going to do.

186

00:25:22.740 --> 00:25:32.040

Michael Whitton - Councilmember: Well, you're, you're not alone. A lot of people can't figure out what the benefit is a building this plan. We already have two new plants that have been built in this area in the last few years.

187

00:25:33.480 --> 00:25:43.770

Michael Whitton - Councilmember: And with New York so telling us that this power is not needed to stabilize our grid over the next decade, especially with more renewable energy coming online.

188

00:25:44.850 --> 00:25:49.380

Michael Whitton - Councilmember: I don't know why it's needed, except to make money for dance camera.

189

00:25:51.390 --> 00:25:55.110

Michael Whitton - Councilmember: And it's going to increase pollution which honestly, I understand, you know, I know.

190

00:25:56.700 --> 00:26:10.770

Michael Whitton - Councilmember: I know it was brought up that it might increase electricity rates. I don't know how it would increase electricity rates if we didn't build a plant that we don't need. Um, but I think on the other side of that ledger is all of the health problems that come along with the pollution.

191

00:26:11.160 --> 00:26:14.130

Michael Whitton - Councilmember: And then last over the next three decades for decades.

192

00:26:15.720 --> 00:26:18.690

Michael Whitton - Councilmember: I think for the cost of a couple of cents and electricity bill.

193

00:26:20.010 --> 00:26:28.020

Michael Whitton - Councilmember: Which I don't even see why that would happen with all the renewable energy, we know with Community Choice aggregation and community solar electricity bills have been going down so

194

00:26:29.310 --> 00:26:34.830

Michael Whitton - Councilmember: I don't see why they need to build this plant and I'm with the 19 other communities that have spoken out against it.

195

00:26:35.610 --> 00:26:49.650

Dean Michael: Okay. Well, the reason that they'll go up is that the renewable renewable energies are not cost efficient and not expensive. In fact, our community aggravation rate is more than what central Hudson's charging right now.

196

00:26:50.820 --> 00:27:00.300

Dean Michael: It may be a fixed fee. So if rates do go up like if we had that microburst like we had a few years back then, yeah, that would that would definitely save us money but

197

00:27:00.990 --> 00:27:08.280

Dean Michael: The big reason that that plant itself will not benefit us directly in that that the electric that comes from that.

198

00:27:08.670 --> 00:27:16.920

Dean Michael: Will be directed right down towards any endpoint and connect on to their power lines down to the city, but what that does do for us directly.

199

00:27:17.310 --> 00:27:21.390

Dean Michael: Is it stops the need for extra power lines to go through our town.

200

00:27:21.780 --> 00:27:34.830

Dean Michael: Because the more powerful power that we're having to bring from upstate downstate means that they're going to need more lines that go through our town so indirectly yes it does affect us and it does benefit us by not having

201

00:27:35.400 --> 00:27:53.460

Dean Michael: To have extra power lines and the potential were restarted with the note monster power line whole conversation was to have an extra line going through our town so you know the other thing is somebody turned me on to MICHAEL MOORE'S latest video. I think it's called the

202

00:27:55.350 --> 00:27:56.610

Dean Michael: The human

203

00:27:58.110 --> 00:28:06.000

Dean Michael: Human earth or something like that. And I'm not a big michael moore fan, but it basically talked about a lot of the lies that that go on with the

204

00:28:06.540 --> 00:28:18.330

Dean Michael: You know the misconceptions of renewable energy and and some of the damages that the things like biofuel and bio mass are really causing and so

205

00:28:18.900 --> 00:28:30.840

Dean Michael: Looking at that you gotta kind of wonder what we're doing here. The mere fact is we're going to need an engine, there may be more houses that have solar panels. That's great.

206

00:28:32.310 --> 00:28:48.030

Dean Michael: I don't begrudge that but it's these sources until we have an a battery backup where we can have on demand electric we're always going to need some type of a fossil fuel unfortunate plant.

207

00:28:49.200 --> 00:29:00.300

Dean Michael: And by the plants staying in a neutral position actually cause more waste and more potent than actually running on a full time basis. And that was one of the things that came out. MICHAEL MOORE'S

208

00:29:00.870 --> 00:29:13.590

Dean Michael: Documentary so I'm opposed to stopping them solely for the fact that I think we need to plan for just even protecting our towns rural character, not having the extra power lines coming through.

209

00:29:18.750 --> 00:29:20.010

Chris Juliano - Council Person: That that's an issue. I'm sorry.

210

00:29:20.430 --> 00:29:21.720

Michael Whitton - Councilmember: No go Chris You please

211

00:29:21.810 --> 00:29:35.880

Chris Juliano - Council Person: I just, you know, I mean, that's an interesting point that I didn't think about was that Dean brought up the fact, what is the nature of. I mean, we kind of held him at bay for a little bit there obviously put new lines coming to our town, what is

212

00:29:37.710 --> 00:29:43.320

Chris Juliano - Council Person: I mean, what is the probability them to do something more down the road. No.

213

00:29:43.950 --> 00:29:46.020

Michael Whitton - Councilmember: Possibility. I mean,

214

00:29:46.140 --> 00:29:57.660

Dean Michael: Right now they're just replacing what's already there. They're not adding it that extra line. But originally when they came in eight years ago or six years ago, their initial proposals was putting out a third line down. I

215

00:29:57.660 --> 00:29:59.640

Dean Michael: Remember down the lane, so

216

00:29:59.820 --> 00:30:01.440

Dean Michael: You know, we've we've shrunk it down.

217

00:30:01.740 --> 00:30:07.500

Dean Michael: For the fact that we fought and said that you don't need the extra electric so now they're just upgrading what's already there.

218

00:30:08.910 --> 00:30:17.880

Michael Whitton - Councilmember: All of that is as well and good, but I'm going to trust New York ISO and their report that says that one Sandy and point leaves, we do not, we will not lead need this new power plant.

219

00:30:18.150 --> 00:30:25.800

Michael Whitton - Councilmember: Over the next decade. That's the projections, they can make because of the new to new power plants that have already been built and all of the renewable energy that is coming online.

220

00:30:26.280 --> 00:30:33.720

Michael Whitton - Councilmember: Now, Dean is correct. We will need battery backup power. Sir, there will always be some sort of fossil fuel when the sun goes down and the wind isn't blowing

221

00:30:34.230 --> 00:30:46.380

Michael Whitton - Councilmember: But the most as long as we continue to build renewable energy, which we have been doing during the days we should be good and just use these power plants in the evenings.

222

00:30:47.880 --> 00:30:54.990

Michael Whitton - Councilmember: And so our reliance on all of these plants is going to shrink over time. So this new one is not necessary.

223

00:30:55.410 --> 00:31:10.680

Dean Michael: Well, I mean just supply and demand. If we have less supply the means the price of electric is going to go up. So if we're restricting ourselves to the supplies that that are intimate and we're going to pay more for electric

224

00:31:13.980 --> 00:31:17.910

Town Supervisor - Ray Oberly: The other this is supervisor overlay just so y'all know who is

225

00:31:19.950 --> 00:31:32.550

Town Supervisor - Ray Oberly: When you put a new play online that cost is distributed across all ratepayers so you bill your electric charge. Bill is going to go up.

226

00:31:33.210 --> 00:31:53.250

Town Supervisor - Ray Oberly: Regardless, they're going to build the other question is, why have a plant sitting right next door only running 5% of the time men, you want to build a brand new one. Also, why don't you take the five percenter and welcome one whole time and save the cost of buying a new pod.

227

00:31:54.990 --> 00:31:57.060

Dean Michael: Well, I'm sure they're not efficient at the 5%

228

00:31:58.140 --> 00:32:05.580

Dean Michael: I mean, that was an old plant they needed to total to be, you know, maybe we shut down because of how bad it was before. So, you know, it needed to

229

00:32:06.030 --> 00:32:06.660

Dean Michael: Be updated.

230

00:32:07.890 --> 00:32:09.510

Michael Whitton - Councilmember: It was shut down because of Hurricane Sandy.

231

00:32:09.870 --> 00:32:12.510

Dean Michael: The flow with the flood, but it was it was an old

232

00:32:12.840 --> 00:32:21.570

Dean Michael: Coal burner. It wasn't efficient. It was very polluting you know they had oil tankers delivering oil to some of the burners.

233

00:32:24.570 --> 00:32:26.100

Town Supervisor - Ray Oberly: Today it's running under

234

00:32:27.270 --> 00:32:36.300

Town Supervisor - Ray Oberly: Gas and he recorded that song. It's a pipeline that goes under the Hudson River to it. Don't do that to be feeding the other place. But again,

235

00:32:37.080 --> 00:32:55.920

Town Supervisor - Ray Oberly: Why run one 5% of the time and the other one 100% and you gotta buy all the equipment, all the people. Everything else insurance and everything else for a new planet, when you have one sitting there basically doing nothing makes sense.

236

00:32:56.820 --> 00:33:00.660

Michael Whitton - Councilmember: And it's a good point that the construction of the plan affects all repairs across the state.

237

00:33:00.750 --> 00:33:01.050

Town Supervisor - Ray Oberly: And what

238

00:33:01.440 --> 00:33:05.070

Michael Whitton - Councilmember: And when Dean brings up that this power is going to be benefiting New York City and not us.

239

00:33:05.580 --> 00:33:06.030

Michael Whitton - Councilmember: Our rate.

240

00:33:06.210 --> 00:33:10.590

Michael Whitton - Councilmember: Would go up by building it to benefit New York City and we get the pollution on top of it.

241

00:33:11.610 --> 00:33:12.510

Michael Whitton - Councilmember: It doesn't make sense.

242

00:33:13.320 --> 00:33:17.010

Chris Juliano - Council Person: I mean, is that is that a definite thing that didn't go because

243

00:33:17.190 --> 00:33:18.900

Chris Juliano - Council Person: Yeah. Yes.

244

00:33:18.990 --> 00:33:20.580

Michael Whitton - Councilmember: Yeah, the cost of it goes to reporters.

245

00:33:21.030 --> 00:33:21.510

Yo,

246

00:33:22.560 --> 00:33:28.470

Chris Juliano - Council Person: And and just had a curiosity. Are you said how many towns were in the area that we're supporting

247

00:33:28.890 --> 00:33:30.870

Michael Whitton - Councilmember: Us 1919

248

00:33:31.680 --> 00:33:35.460

Chris Juliano - Council Person: But how many, how many were did anyone publicly come against it.

249

00:33:37.110 --> 00:33:37.440

Chris Juliano - Council Person: Yes.

250

00:33:38.220 --> 00:33:38.850

I don't know.

251

00:33:40.230 --> 00:33:52.860

Michael Whitton - Councilmember: I haven't heard of it. I mean, I did a whole bunch of searches for news articles so that I could read the stories on the town's it did approve it. I didn't see any that said that they were against it. I think they probably just didn't take it up if they were against it, I suppose.

252

00:33:54.720 --> 00:33:58.710

Dean Michael: I mean, the town that that it's being proposed in didn't oppose it.

253

00:34:01.530 --> 00:34:03.810

Michael Whitton - Councilmember: A whole bunch of environmental groups in that town or closing it

254

00:34:05.070 --> 00:34:07.050

Dean Michael: Clear where it goes up and down the whole Hudson, so

255

00:34:08.520 --> 00:34:13.980

Town Supervisor - Ray Oberly: The unfortunate thing is the local government in school districts want it. They need the patches that

256

00:34:14.400 --> 00:34:17.460

Dean Michael: The school district was severely hurt when it closed down.

257

00:34:18.540 --> 00:34:21.090

Dean Michael: To come in and throw a couple extra million dollars that

258

00:34:21.360 --> 00:34:23.910

Dean Michael: The bailout. The school from the last the rep tax revenue.

259

00:34:25.350 --> 00:34:29.250

Dean Michael: So the jobs, the tax revenue, those little do help our local economy.

260

00:34:32.040 --> 00:34:39.900

Town Supervisor - Ray Oberly: The operation jobs are very few people in a plant. It's just a little bit of a construction time half a year or something, then it's done.

261

00:34:42.960 --> 00:34:46.170

Town Supervisor - Ray Oberly: Any further discussion. Everyone have a piece

262

00:34:47.580 --> 00:34:52.440

Town Supervisor - Ray Oberly: Okay. Then we'll vote roll call overly I Giuliano

263

00:34:54.120 --> 00:34:55.500

Nancy Cunningham: Make the motion versus

264

00:34:55.980 --> 00:34:57.240

Town Clerk Carol Mackin: I didn't make the motion. He did.

265

00:35:00.030 --> 00:35:00.450

Nancy Cunningham: Okay.

266

00:35:02.370 --> 00:35:08.850

Chris Juliano - Council Person: Well, I would like to before we make vote on it. I'd like to do a little more research on this before coming up.

267

00:35:10.140 --> 00:35:18.270

Chris Juliano - Council Person: But I watched the video I do agree with Dean I do agree that I've been, but I also do agree the, the nature of

268

00:35:19.560 --> 00:35:28.770

Chris Juliano - Council Person: The invite you know the environmental source on it, you know, but we're I think we're a little slow on battery stuff coming in and Solar's and moving forward in a way

269

00:35:30.900 --> 00:35:31.860

Chris Juliano - Council Person: I'm not 100%

270

00:35:32.880 --> 00:35:48.720

Chris Juliano - Council Person: Sold. Either way, but right now I do see the potential for, you know, the lines that I'd like to find out what the probability of have another lines come in this town that's so that's one thing I never even thought about. I thought we were set with lines coming down.

271

00:35:49.230 --> 00:35:51.960

Town Supervisor - Ray Oberly: There is no discussion on more lines coming through.

272

00:35:52.260 --> 00:35:53.550

Chris Juliano - Council Person: Right now. Yeah.

273

00:35:53.610 --> 00:35:54.060

Town Supervisor - Ray Oberly: I mean,

274

00:35:54.180 --> 00:36:01.950

Town Supervisor - Ray Oberly: I mean I can present something for 15 years from now on this link building operations in 2013

275

00:36:02.250 --> 00:36:08.850

Chris Juliano - Council Person: Yeah, but the only difference going to get the difference right now is that Indian Point shutting down so they say right now.

276

00:36:09.270 --> 00:36:17.880

Chris Juliano - Council Person: And my concern is, I know we went through and the lines aren't definitely far from me on the other side of the road over here, you know, what would that impact on the lines that

277

00:36:18.480 --> 00:36:25.500

Chris Juliano - Council Person: affect us personally and then my concern is when to these bigger lines go on in our towns coming up for the competition, something like this.

278

00:36:26.610 --> 00:36:36.720

Chris Juliano - Council Person: There is radiation from these lines you know i mean you know that that's something that you know does affect us in that, you know, I didn't even really get that much thought.

279

00:36:36.930 --> 00:36:41.730

Dean Michael: Yeah, I mean, when she came and talked about the new power lines because there's so much power going through it.

280

00:36:42.060 --> 00:36:45.450

Dean Michael: Yeah, driven home and make a lot of noise as well.

281

00:36:46.650 --> 00:36:59.190

Chris Juliano - Council Person: Now that it may come down with more people doing solar which I see a lot of my clients are going solar, which is great thing on their homes and see the end, people are using LED lights and stuff like that and more energy efficient.

282

00:37:00.660 --> 00:37:06.270

Chris Juliano - Council Person: Stuff, we may see less need. I mean that's ultimately the goal is, if you know people become more self sufficient.

283

00:37:06.750 --> 00:37:07.080

Chris Juliano - Council Person: We were

284

00:37:07.710 --> 00:37:13.530

Town Supervisor - Ray Oberly: We were at roll call. We had discussion earlier. So are you gonna vote or not.

285

00:37:14.970 --> 00:37:16.080

Chris Juliano - Council Person: At this point I'm

286

00:37:17.070 --> 00:37:19.110

Chris Juliano - Council Person: Yes, I'm abstaining from

287

00:37:20.070 --> 00:37:21.420

Michael Whitton - Councilmember: Waiting I

288

00:37:22.200 --> 00:37:23.370

Dean Michael: Michael know

289

00:37:25.650 --> 00:37:26.010

Nancy Cunningham: High

290

00:37:26.970 --> 00:37:27.930

Town Supervisor - Ray Oberly: Motion carry

291

00:37:34.920 --> 00:37:42.510

Michael Whitton - Councilmember: To add on to it. If anybody wants to sign up for Community solar Hudson Valley Community power.com sends 50 bucks to a fund for Clinton.

292

00:37:45.390 --> 00:37:46.680

Town Supervisor - Ray Oberly: Okay, next time.

293

00:37:49.980 --> 00:38:07.980

Dean Michael: So this is a property over on ramp road. It was a foreclosure on the property had been pretty dilapidated at the time that the the people purchased it, so it is a significant reduction in taxes of \$400,000 reduction.

294

00:38:09.210 --> 00:38:18.150

Dean Michael: But over time as the property gets improves, I'm sure. Teresa will will raise the taxes on the property. So I make a resolution.

295

00:38:18.660 --> 00:38:33.420

Dean Michael: We resolve the town board approves resolution number 24 2020 authorizing the town attorney of the town of Clinton to enter into a stipulation within the attorney for Petitioner the terms of which are set forth and you attach stipulation number of

296

00:38:34.560 --> 00:38:46.140

Dean Michael: Dash by 299 and hereby authorize the attorney for the town chain Egan Esquire to sign said stipulation, on behalf of the town. Is there a second

297

00:38:47.340 --> 00:38:48.330

Chris Juliano - Council Person: Giuliana second

298

00:38:49.890 --> 00:38:51.000

Town Supervisor - Ray Oberly: Further discussion.

299

00:38:52.200 --> 00:38:56.070

Town Supervisor - Ray Oberly: Okay. Roll call vote overly I Giuliano

300

00:38:56.370 --> 00:38:57.840

Town Supervisor - Ray Oberly: I within

301

00:38:58.110 --> 00:38:59.670

Town Supervisor - Ray Oberly: I Michael

302

00:38:59.880 --> 00:39:01.530

Town Supervisor - Ray Oberly: I haven't had

303

00:39:02.130 --> 00:39:04.140

Town Supervisor - Ray Oberly: I won't she carried

304

00:39:08.100 --> 00:39:15.810

Town Supervisor - Ray Oberly: The next road is the online option counter this one we little bit about it. So you know what it's about.

305

00:39:16.710 --> 00:39:24.300

Town Supervisor - Ray Oberly: The town will have highway equipment declared surplus later this year in order to get a better price for the surplus items.

306

00:39:24.720 --> 00:39:30.480

Town Supervisor - Ray Oberly: An online auction house generally get a better price than just the yard sale.

307

00:39:31.140 --> 00:39:40.230

Town Supervisor - Ray Oberly: Or auction houses will be another auction house will be considered later when we get their contract for review and obviously we use the best deal but

308

00:39:40.710 --> 00:39:51.930

Town Supervisor - Ray Oberly: Just to keep it on so we don't lose it. So I make a motion that the town board approves the following resolution be resolved at the town board approves the resolution number 25 or 2020

309

00:39:52.260 --> 00:40:00.990

Town Supervisor - Ray Oberly: A contract between the time of Clinton and options international incorporated for the sale of government machinery equipment and another surplus.

310

00:40:02.160 --> 00:40:03.330

Town Supervisor - Ray Oberly: online auction.

311

00:40:04.530 --> 00:40:05.310

Town Supervisor - Ray Oberly: Is there a second

312

00:40:06.330 --> 00:40:07.260

Dean Michael: You Michael second

313

00:40:08.820 --> 00:40:13.770

Dean Michael: Question. I mean this this company usually goes and partners with

314

00:40:15.420 --> 00:40:20.940

Dean Michael: AAA auctions there in in Pleasant Valley why when we just go directly to

315

00:40:21.600 --> 00:40:23.430

Town Supervisor - Ray Oberly: That the other company we're considering.

316

00:40:23.490 --> 00:40:36.240

Dean Michael: Well, I mean they this this this company actually usually partners with them because they are the local watch your house to give it extra exposure. I mean this, we just better off going to them directly.

317

00:40:36.480 --> 00:40:37.170

Town Supervisor - Ray Oberly: Well, that's what

318

00:40:38.640 --> 00:40:39.450

Town Supervisor - Ray Oberly: He just gave me

319

00:40:40.050 --> 00:40:44.190

Dean Michael: I mean, as long as we don't have a limitation. I'm using other houses. I mean, it's not a problem. I'm just wondering

320

00:40:44.640 --> 00:40:44.970

No.

321

00:40:46.080 --> 00:40:47.580

Town Supervisor - Ray Oberly: Okay, we'll find the discussion.

322

00:40:47.880 --> 00:40:55.020

Chris Juliano - Council Person: Is there a better. Do we know what the percentage rates are that they get off this is one better than the other.

323

00:40:55.200 --> 00:40:58.920

Town Supervisor - Ray Oberly: While we're waiting for the one from to get the contract.

324

00:40:59.190 --> 00:41:04.050

Dean Michael: Usually they have it as an add on to the buyer's premium so it's not

325

00:41:04.800 --> 00:41:13.920

Dean Michael: It's not costing us any difference but you know if it's 20% versus another guys 15% i mean you know we're benefiting the the buyer. Yeah.

326

00:41:15.240 --> 00:41:22.470

Nancy Cunningham: I like to add also just for the benefit of people that are watching that we do this every year and

327

00:41:23.100 --> 00:41:29.940

Nancy Cunningham: In a lot of instances the equipment. I mean, we've just purchased two trucks. We're trying to replenish, a lot of our equipment.

328

00:41:30.270 --> 00:41:43.920

Nancy Cunningham: The highway department which is needed some of his equipment is still operational, but it doesn't that measure up to what we need to make this town safe and to repeatedly use it so

329

00:41:44.430 --> 00:41:59.160

Nancy Cunningham: We have opportunities to put this out for bid where other people can refurbish it use it and get get their money back, but it really is a necessary thing and it's a benefit because we can take the proceeds and put them back in the town.

330

00:42:00.630 --> 00:42:06.630

Town Supervisor - Ray Oberly: Okay. Any more discussion. Okay, let's vote overly I Giuliano

331

00:42:06.900 --> 00:42:08.220

Town Supervisor - Ray Oberly: I, what did

332

00:42:08.490 --> 00:42:09.720

Town Supervisor - Ray Oberly: I Michael

333

00:42:09.930 --> 00:42:11.430

Town Supervisor - Ray Oberly: I putting him.

334

00:42:12.240 --> 00:42:12.660

Town Supervisor - Ray Oberly: High

335

00:42:13.320 --> 00:42:14.520

Motion carried.

336

00:42:15.870 --> 00:42:22.830

Town Supervisor - Ray Oberly: OK, now go into resignation resignations and appointments 20

337

00:42:23.640 --> 00:42:39.900

Nancy Cunningham: Okay, yes. As I said earlier, we are keeping the park friend Mark Park somewhat operational with very few restriction. A lot of restrictions in order to do that we had to hire the summer health

338

00:42:40.950 --> 00:42:58.830

Nancy Cunningham: Which means gate guards and lifeguards so this resolution is to pass them, make them legal we already have them in place. So I would like to ask the town board to approve falling, be it resolved that the convoy approved resolution.

339

00:43:01.470 --> 00:43:02.760

Nancy Cunningham: Appointed the summer.

340

00:43:03.660 --> 00:43:05.250

Nancy Cunningham: Record employees.

341

00:43:07.920 --> 00:43:09.150

Nancy Cunningham: lessons on the web.

342

00:43:09.930 --> 00:43:10.800

Dean Michael: A Michael second

343

00:43:11.250 --> 00:43:12.870

Town Supervisor - Ray Oberly: Okay session.

344

00:43:14.700 --> 00:43:18.720

Town Supervisor - Ray Oberly: Roll call vote overly I Giuliano

345

00:43:20.070 --> 00:43:20.850

Town Supervisor - Ray Oberly: Within

346

00:43:21.120 --> 00:43:22.800

Town Supervisor - Ray Oberly: I Michael

347

00:43:23.070 --> 00:43:24.720

Town Supervisor - Ray Oberly: I bring him.

348

00:43:26.280 --> 00:43:29.010

Town Supervisor - Ray Oberly: Motion carried. Okay, the next one.

349

00:43:30.300 --> 00:43:30.570

Nancy Cunningham: And

350

00:43:31.620 --> 00:43:33.960

Nancy Cunningham: Hopefully last one for me. I'm getting worse.

351

00:43:35.130 --> 00:43:38.940

Nancy Cunningham: The last one is to appoint Damien parks.

352

00:43:40.290 --> 00:43:46.650

Nancy Cunningham: In the highway department to a full time status. So I'd like to ask the town board to approve.

353

00:43:48.150 --> 00:43:48.600

Nancy Cunningham: The

354

00:43:50.070 --> 00:44:05.430

Nancy Cunningham: Baby and pots as a full time highway labor effective may 4 2020 or 40 hours per week at the rate of 1710 per hour with CSP a benefit.

355

00:44:06.270 --> 00:44:06.780

Second,

356

00:44:08.130 --> 00:44:08.550

Dean Michael: Second,

357

00:44:09.390 --> 00:44:10.680

Town Supervisor - Ray Oberly: Then, further discussion.

358

00:44:12.180 --> 00:44:16.380

Town Supervisor - Ray Oberly: Oh, okay. Roll call vote for Billy I Giuliano

359

00:44:17.550 --> 00:44:18.180

Town Supervisor - Ray Oberly: Within

360

00:44:18.510 --> 00:44:21.390

Town Supervisor - Ray Oberly: I Michael Cunningham.

361

00:44:23.820 --> 00:44:24.900

Town Supervisor - Ray Oberly: Motion carrying

362

00:44:28.590 --> 00:44:29.820

Dean Michael: Emotion being approved.

363

00:44:30.840 --> 00:44:33.840

Dean Michael: The town board approves the June 9

364

00:44:35.370 --> 00:44:43.470

Dean Michael: General number 230-432-7770 \$4,849 97 cents.

365

00:44:46.380 --> 00:44:56.220

Dean Michael: \$24 and 37 cents. Is there a second

366

00:44:56.970 --> 00:44:57.960

Chris Juliano - Council Person: Giuliano second

367

00:44:59.340 --> 00:44:59.970

Town Supervisor - Ray Oberly: Session.

368

00:45:01.980 --> 00:45:04.290

Town Supervisor - Ray Oberly: Roll Call overly I Giuliana

369

00:45:07.650 --> 00:45:08.280

Town Supervisor - Ray Oberly: Waiting

370

00:45:08.550 --> 00:45:11.850

Town Supervisor - Ray Oberly: I Michael Cunningham.

371

00:45:12.510 --> 00:45:16.620

Town Supervisor - Ray Oberly: High motion carrying that someone is to move funds.

372

00:45:17.940 --> 00:45:24.780

Town Supervisor - Ray Oberly: This is to balance the accounts that were never precise so protective over a little on one and under another so

373

00:45:26.880 --> 00:45:41.550

Town Supervisor - Ray Oberly: The emotion that the town board approves the following resolution be resolved at the time board approves resolution number 27 2020 emotion to move funds at the June, June night 2020 pound board meeting was your second

374

00:45:42.420 --> 00:45:43.710

Chris Juliano - Council Person: It's actually our second

375

00:45:44.310 --> 00:45:45.660

Town Supervisor - Ray Oberly: Any discussion.

376

00:45:46.740 --> 00:45:51.330

Town Supervisor - Ray Oberly: Okay. Roll Call overly I Giuliana within

377

00:45:51.630 --> 00:45:54.630

Town Supervisor - Ray Oberly: I Michael Cunningham.

378

00:45:55.290 --> 00:45:58.470

Town Supervisor - Ray Oberly: Hi motion carrying that

379

00:46:01.380 --> 00:46:03.240

Town Supervisor - Ray Oberly: They supervisors report.

380

00:46:05.100 --> 00:46:11.250

Town Supervisor - Ray Oberly: On the emotion that the town board approves the may 2020 supervisors report second

381

00:46:12.090 --> 00:46:14.700

Town Supervisor - Ray Oberly: D microsecond the action and discussion.

382

00:46:15.930 --> 00:46:19.020

Town Supervisor - Ray Oberly: Okay. Roll Call overly I Giuliano

383

00:46:21.780 --> 00:46:22.470

Town Supervisor - Ray Oberly: Witten

384

00:46:22.770 --> 00:46:24.120

Town Supervisor - Ray Oberly: I Michael

385

00:46:25.320 --> 00:46:26.040

Town Supervisor - Ray Oberly: Cunningham.

386

00:46:27.660 --> 00:46:31.110

Town Supervisor - Ray Oberly: Motion carried. Is there any other business.

387

00:46:31.740 --> 00:46:32.550

Or the time

388

00:46:34.890 --> 00:46:37.110

Chris Juliano - Council Person: Okay, why did you go ahead man to go after you

389

00:46:38.190 --> 00:46:38.700

Nancy Cunningham: Um,

390

00:46:40.830 --> 00:46:43.500

Nancy Cunningham: We still have not finalized.

391

00:46:44.130 --> 00:46:50.490

Nancy Cunningham: In everything the respective are talking about the contract for a wi

392

00:46:51.300 --> 00:46:53.220

Nancy Cunningham: FI department.

393

00:46:54.240 --> 00:47:06.840

Nancy Cunningham: And as we're working through appointments as we're working through salaries as we're working through a lot of the detail and the personnel, we are stuck. And in the old contract.

394

00:47:06.990 --> 00:47:19.740

Nancy Cunningham: Which does not necessarily reflect what this new contract says okay and I just feel like we're dragging our feet. I know Dean has one more meeting tomorrow.

395

00:47:20.280 --> 00:47:31.320

Nancy Cunningham: But this is long overdue and I think by the next meeting, if not before. This has to be approved because we're just, we're just getting into all kinds of problems.

396

00:47:32.550 --> 00:47:42.270

Nancy Cunningham: And bring your, you know, you basically are the one that's kind of holding it up. I think we all agree, this needs to be done so.

397

00:47:42.720 --> 00:47:44.970

Dean Michael: Next, the, the issue that Ray had

398

00:47:45.030 --> 00:47:45.360

And

399

00:47:46.860 --> 00:47:54.300

Dean Michael: The meeting tomorrow is nothing more than to finalize the rates of pay for the M iOS.

400

00:47:55.230 --> 00:48:11.070

Dean Michael: Since it wasn't really finalized before because we don't have that position but target. If we're going to delay it, we've already deleted anyway so might as well sit down. So I'm sitting down with the Union and the and the attorney and we'll, we'll iron out the, the final

401

00:48:12.330 --> 00:48:18.450

Dean Michael: Labor rates for the cameos and then the things should be done. I mean, that's just got to be done.

402

00:48:23.100 --> 00:48:35.610

Chris Juliano - Council Person: Something that I think we need to also talk about is getting the meetings, at least we can do the town meeting space would get a more visualize over TV as well as I'm sure this workout with YouTube Live

403

00:48:36.420 --> 00:48:45.720

Chris Juliano - Council Person: Back, since we're, we can be within the 10 members within the town hall to have these meetings in person. Again, I think it's really important.

404

00:48:46.710 --> 00:48:55.980

Chris Juliano - Council Person: As far as that goes. Also, I think we need to start getting back on track as other towns are starting to get some of their other agenda items moving forward that I've been noticing.

405

00:48:56.400 --> 00:49:06.480

Chris Juliano - Council Person: As it's been opening up. We still have to deal with a short term rental which I have a lot of people have that coming up to me regarding asking what's going on as far as the agricultural events.

406

00:49:07.710 --> 00:49:16.890

Chris Juliano - Council Person: You know, we put them on hold for this coven 19 but I don't see why we can't get in, he feels he feels these laws ironed out

407

00:49:18.060 --> 00:49:33.150

Chris Juliano - Council Person: You know, we're very close on finishing both of them we've had multiple public hearings options on air. We're going to be well into the summer at this point. And some people want to know that they have some sort of protections, as things start opening up as well.

408

00:49:35.130 --> 00:49:41.400

Chris Juliano - Council Person: I think we need to. I really like to push for the next meeting in person at this point.

409

00:49:43.650 --> 00:49:52.620

Town Supervisor - Ray Oberly: There are some up there's rain over there are some operational problems that we still have not resolved. We got to figure out how to do as to how do we do

410

00:49:53.820 --> 00:50:02.100

Town Supervisor - Ray Oberly: Allow people to come in. If we're going to have open live meetings. Our we're going to cover it with zoom

411

00:50:02.550 --> 00:50:18.270

Town Supervisor - Ray Oberly: With handling the variety of people that may be participating in these local law public carries is a challenge that is not physically saw. So I mean it's not that we're not trying to do it are

412

00:50:19.080 --> 00:50:28.680

Dean Michael: You saying that we don't need zoom that we should just do it as we always did most of our town board meetings never had more than 10 even, you know, most of the time anyway.

413

00:50:29.550 --> 00:50:34.710

Chris Juliano - Council Person: And people are still able to see the same way through zoom either we can go between our live

414

00:50:35.220 --> 00:50:36.150

Dean Michael: live telecast

415

00:50:36.720 --> 00:50:43.950

Chris Juliano - Council Person: Or if we're worried about people that don't have cable and they're getting used to using zoom YouTube Live, I'm sure, be able to stream it live.

416

00:50:44.910 --> 00:50:52.470

Chris Juliano - Council Person: As well as the cable version of this. I think there's a huge value coming in here, and we've been limiting

417

00:50:53.190 --> 00:51:04.350

Chris Juliano - Council Person: limiting the amount of what we've been handling on the meetings at this point. Everything starting to open up a little bit. From what I understand some of the other towns are starting to get on some Normalcy and normal

418

00:51:06.000 --> 00:51:20.970

Chris Juliano - Council Person: Conversations about other things that are going on here. We've been trying to keep them very simple, but I think we're by hopefully by being at least phase three by the next meeting. If not, maybe even close to face for efficiencies on tractor.

419

00:51:21.720 --> 00:51:31.950

Town Supervisor - Ray Oberly: That case for was. It was overly again thanks for we shouldn't be able to be open, which will probably be early July. Sometime, but

420

00:51:31.980 --> 00:51:35.160

Dean Michael: But that's what he's saying by the next meeting. We should be close to phase for

421

00:51:35.760 --> 00:51:40.440

Town Supervisor - Ray Oberly: Shipping but what the numbers are. Governor says what we

422

00:51:41.580 --> 00:51:45.840

Town Supervisor - Ray Oberly: What we still got a lot of work to do to have all the

423

00:51:46.770 --> 00:51:57.270

Chris Juliano - Council Person: Info what's happening though that I see here. Ray is, you know, there's a lot of conversations that we're not having and we're trying to escape through, you know, just having some, you know,

424

00:51:57.960 --> 00:52:02.760

Chris Juliano - Council Person: I don't want to say, I don't want to say basic stuff because it's not based on all the stuff that Nancy to work on has been

425

00:52:03.090 --> 00:52:10.260

Chris Juliano - Council Person: very time consuming and she's been a lot of effort to and some of those others come on there's other issues in the town that we should be able to have discussions either a

426

00:52:10.890 --> 00:52:21.990

Chris Juliano - Council Person: We start even have these discussions and find a way to deal with these other two laws. Some of the other issues that are going on in the town have meetings on your resume or in person.

427

00:52:23.760 --> 00:52:36.120

Chris Juliano - Council Person: I think it's time that we start looking forward rather than waiting later you know people we should have had some of these these the short term rental defense figured out a long time ago. And people are getting Nancy

428

00:52:36.780 --> 00:52:38.910

Chris Juliano - Council Person: I have a lot of people contacted me

429

00:52:39.570 --> 00:52:48.390

Michael Whitton - Councilmember: I would say that I agree with all that, except that I mean I see raise point. We can't. We have to have the public hearing before we can have the vote on those because the public hearings were left open and so we

430

00:52:48.420 --> 00:52:51.000

Chris Juliano - Council Person: Know, I understand that we got to close them or they were left. Oh.

431

00:52:51.450 --> 00:53:00.390

Michael Whitton - Councilmember: Yeah, so we can't do that yet. And so in July. We're in Phase four will be able to have those public hearings and hopefully move forward because Lord knows, I'd love to get short term rentals off my plate but

432

00:53:04.590 --> 00:53:07.530

Michael Whitton - Councilmember: I had to, if we're done with that I have to really very quick things.

433

00:53:08.580 --> 00:53:21.510

Michael Whitton - Councilmember: The library is now doing curbside pickup. So if you want library books, you can go online or call them and I wanted to give a thank you to the American Legion Rhinebeck Montgomery posts number 49

434

00:53:21.840 --> 00:53:31.710

Michael Whitton - Councilmember: As they have done for many years on Memorial Day. They had volunteers come out to all three of the cemeteries that we now own and put flags at all the veteran cemeteries and I just wanted to extend a thank you to them.

435

00:53:32.640 --> 00:53:33.240

Town Supervisor - Ray Oberly: Thank you.

436

00:53:33.570 --> 00:53:34.800

So much appreciated.

437

00:53:37.740 --> 00:53:38.730

Town Supervisor - Ray Oberly: Okay, you're

438

00:53:40.050 --> 00:53:46.350

Town Supervisor - Ray Oberly: Okay, with a motion to adjourn the meeting will call overly I Giuliano

439

00:53:46.620 --> 00:53:47.790

Town Supervisor - Ray Oberly: I within

440

00:53:48.120 --> 00:53:49.470

Town Supervisor - Ray Oberly: I Michael

441

00:53:49.620 --> 00:53:51.090

Town Supervisor - Ray Oberly: I putting him.

442

00:53:51.990 --> 00:54:07.440

Town Supervisor - Ray Oberly: In motion carry her journey. So the next meeting will be the second Tuesday. Enjoy. And we'll see where we are with the opening up the town board meetings time don't know this moment.

443

00:54:08.550 --> 00:54:09.660

Town Supervisor - Ray Oberly: So that's it.

444

00:54:10.020 --> 00:54:11.700

Chris Juliano - Council Person: Thank you everyone. Have a good evening.
