

East and West Clinton Fire Companies respond to community's needs

The COVID 19 pandemic has greatly impacted all our lives causing these times to be extremely challenging. The Chiefs of the East and West Clinton Fire Departments are teaming up to respond to the needs of many individuals within the Town of Clinton who may need additional assistance.

Due to the coronavirus there are some residents who are either under mandatory quarantine or under NYS direction to remain in their homes who may need help with necessary provisions. The East and West Clinton Fire Companies are teaming up to provide and deliver items to such homes at no cost to the recipient. These nonperishable food items have been purchased by the East and West Fire Companies at no cost to the taxpayers.

The list of prepackaged items includes: Fruit cups, apple sauce, pasta and sauce, canned vegetables, beans, canned soup, crackers, peanut butter, macaroni and cheese, rice meals, oatmeal, canned tuna and chicken, juice and boxed milk.

This assistance is only for those who may not have other means of ascertaining needed provisions, such as non-quarantined family members or neighbors. However, when no option is available, we are here to help. Additionally, if you know any qualifying individuals, please contact us.

To request a delivery of the aforementioned items, help is only a phone call away. A member of the fire company will call and let you know when your package will be delivered and leave it outside your door.

Requests can be made of either Chief:

East Clinton – Chief Don Estes 845 266-5485

West Clinton – Chief Brian Dingee 845 389-9199
