## FLOODPLAINS DEVELOPMENT PERMIT Sec. 140.12

Name:	 	
Property Address:	 	
Telephone #	 	
Tax Grid #		

## Describe the activity or development to be undertaken:

The applicant shall provide the following information per Sec. 140.13 of the Town of Clinton Code.

<u>A.</u> The proposed elevation, in relation to mean sea level, of the lowest floor (including basement or cellar) of any new or substantially improved structure to be located in Zones A1-A30, AE or AH, or Zone A if base flood elevation data are available.

**<u>B.</u>** The proposed elevation, in relation to mean sea level, to which any new or substantially improved nonresidential structure will be floodproofed.

**<u>C.</u>** A certificate from a licensed professional engineer or architect that any utility floodproofing will meet the criteria in § **<u>140-16C</u>**, Utilities.

<u>D.</u> A certificate from a licensed professional engineer or architect that any nonresidential floodproofed structure will meet the floodproofing criteria in § <u>140-</u><u>18</u>, Nonresidential structures.

<u>E.</u> A description of the extent to which any watercourse will be altered or relocated as a result of proposed development. Computations by a licensed professional engineer must be submitted that demonstrate that the altered or relocated segment will provide equal or greater conveyance than the original stream segment.

<u>F.</u> The applicant must submit any maps, computations or other material required by the Federal Emergency Management Agency (FEMA) to revise the documents enumerated in § **140-6**, when notified by the Local Administrator, and must pay any fees or other costs assessed by FEMA for this purpose. The applicant must also provide assurances that the conveyance capacity of the altered or relocated stream segment will be maintained.

**<u>G.</u>** A technical analysis, by a licensed professional engineer, if required by the Local Administrator, which shows whether proposed development to be located in an area of special flood hazard may result in physical damage to any other property.

**H.** In Zone A, when no base flood elevation data are available from other sources, base flood elevation data shall be provided by the permit applicant for subdivision proposals and other proposed developments (including proposals for manufactured home and recreational vehicle parks and subdivisions) that are greater than either 50 lots or five acres.
