Climate Smart Task Force

- Are the Agendas and Minutes available on the town’s website for residents to read? Should the Climate Smart Program under “Community” on the town website be relabeled/updated/restructured?
- Benchmarking Update

Pollinator Pathway

- Barbara started the CAC’s Town of Clinton Dutchess County page on the Pollinator Pathway website - <https://www.pollinator-pathway.org/towns/clinton> It needs more information. How do we encourage residents to sign up on the website? Who would like to help with writing the information, for example, for Fran Mark Park? Is Omega interested in joining the Pollinator Pathway?
- Should we request the addition on a Pollinator Pathway page under “Community” on the town’s website? This could include information that is on the Pollinator Pathway display. Display and Pollinator Pathway press release are now located in the back of the Town Hall.
- Forum: What’s the Buzz: Creating Pollinator Friendly Communities Virtual Forum – November 3, 2021 from 6pm to 8pm. Email to town residents
- Library Programs – Back in March of this year, Maya gave a super program to our CAC regarding what/who the Pollinators are. I wonder if this could be done for the Library?

History of Clinton’s CAC Accomplishments – Would someone volunteer to document the CAC’s accomplishments? Resources: (1) “Community” drop down tab found on the front page of the town website. [Open Space, Farmland Protection, Biodiversity Project, Participation in the Comprehensive Plan] (2) Section 250-78 Freshwater wetlands, watercourses, lakes, ponds, and floodplains in the town’s zoning code - <https://ecode360.com/11845618>
