

Pollinator Pathways

Establishing pollinator-friendly habitats and food sources for bees, butterflies, hummingbirds and other pollinating insects and wildlife

Do you:

- **Include native plants and manage invasive species?**
- **Avoid using pesticides and herbicides?**
- **Consider leaving bare ground, autumn leaves and dead wood for overwintering eggs and pupae of overwintering insects?**

Interested? Need more information? Join the millions and register your business, farm or home for free at www.pollinator-pathway.org
