Application for subdivision approval may be referred by the Planning Board to its Town Engineer	
and/or private consultants for review. Such consultants may include an engineer, planning	
consultant or other specialist if necessary for the Board to make an informed decision. Expenses	
incurred by the Town for this purpose shall be fair and reasonable and shall be reimbursed to the

\$1500 shall be established for this purpose at the time of preliminary plat application for any major	
subdivision. For an application for a commercial communication facility, the amount of escrow	
requested should be large enough so that requests for an applicant to add to the escrow account	
will be infrequent or unnecessary. Should the required escrow be depleted before final approval,	
the applicant will be advised that additional monies must be deposited before review will continue.
